

NEO-GELCO *Suspension*

Antacid

Composition:

Each 100 ml. contains:

- Aluminum hydroxide compressed gel 29.300 gm.
- Magnesium hydroxide 2.127 gm.

Properties:

NEO-GELCO Suspension is a palatable well balanced antacid preparation containing Aluminum Hydroxide compressed gel and Magnesium Hydroxide . Both Aluminum Hydroxide compressed gel and Magnesium Hydroxide are non - systemic antacids which do not alter acid - base balance . Their presence together in NEO-GELCO , ensures potent antacid effect , rapid onset and prolonged action , without disturbing bowel habits .

Indications & Usage:

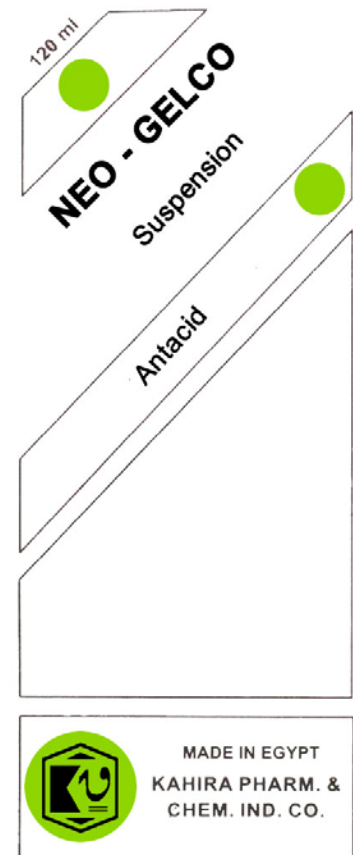

- To relieve symptoms of gastric hyperacidity as heartburn, sour stomach and / or acid indigestion.
- Hyperacidity associated with peptic ulcer, peptic oesophagitis , hiatus hernia and gastritis.

Side Effects:

None is observed at the recommended doses.

Use in Pregnancy:

Adequate and well - controlled studies have not been done in pregnant females . However , Aluminum - and Magnesium - containing antacids are generally

considered safe for use during the last two trimesters of pregnancy as long as chronic high doses are avoided.

Use in Nursing Mother:

There is no evidence to suggest that Aluminum - and Magnesium - containing antacids should not be given to nursing mothers.

Dosage & Administration:

1 - 2 teaspoonfuls after or between meals and at bedtime, or as directed by the physician , Shake the bottle well before use.

Packing:

Bottles of 120, 180 ml. suspensions.
