

# **NOFLU** *Tablets & Syrup*

**Anticatarrhal - Decongestant - Analgesic & Antipyretic**

## **Composition:**

**Each tablet contains : Each 5 ml contains:**

- Paracetamol (micronised) 400 mg 160 mg.
- Pseudoephedrine hydrochloride 60.0 mg 15.0 mg.
- Chlorpheniramine Maleate 3 mg 1 mg.

## **Properties:**

NOFLU is a well formulated preparation which contains specially selected components that act together to provide rapid relief from symptoms of upper respiratory congestion, common cold & influenza.

Paracetamol is highly safe analgesic & antipyretic. Although no euphoria occurs. Paracetamol compounds appear to cause relaxation, allaying of restlessness, anxiety & a little drowsiness which makes the agents admirably suited for relief of headache. These psychological effects are secondary to the relief of pain.

Chlorpheniramine Maleate is a potent, rapidly acting antihistaminic which helps in alleviating rhinorrhoea, nasal stuffiness & sneezing. It is well tolerated and generally causes minimal drowsiness than other antihistamines.

Pseudoephedrine hydrochloride is directly acting sympathomimetic amine. It acts on a -1 receptor in the mucosa of the respiratory tract to produce vasoconstriction which

temporarily reduces the swelling associated with inflammation of the mucous membranes lining the nasal passages. It does not affect the blood pressure of normotensive patient.

**Indications:**

- Common cold and influenza.
- Allergic and vasomotor rhinitis.
- Rhino sinusitis.
- Congestion of the Eustachian tube.

**Dosage & Administration:**

- Children from 1 -2 years of age : (the dosage must be individualised by the physician) 5 ml to be given twice daily.
